District News. The Netcong-Stanhope Rotary club has kicked-off a project titled '**Solar Panels for the Poor in Sri Lanka**'. The aim is to set-up 1000 poor families in Sri Lanka with Solar Panels which will provide 4-6 hours of electricity in the evenings to poor and destitute families that live in 1 room shacks.

An American Jesuit priest (a Rotarian) in Sri Lanka with an advanced degree in physics has already set-up a technical school in Sri Lanka to train young people among other things to install, maintain and repair the solar panels in these shacks. In other words, it does not cost a single penny to the poor. Interestingly, each panel can last 10 years and will generate electricity for the poor family - free of charge!

The Netcong-Stanhope club is reaching-out for collaboration among the Rotary clubs in a Districtwide 7470 partnership to gather support and funds for this Global project. Our District Governor Frank Geraghty supports this Global Rotary effort. We have extended an invitation to the club to do a presentation on this endeavor.
